

# Frequently Asked Questions (FAQs)

## NCC 2022 Adoption

### Has the entirety of NCC 2022 been adopted or are there transition periods?

NCC 2022 has been adopted by the states and territories, with transitional arrangements for the following requirements:

- livable housing
- energy efficiency and condensation mitigation
- lead free plumbing products

As individual jurisdictions have adjusted dates of implementation to address local circumstances, longer [transition periods](#) may also apply for some requirements.

Visit your [jurisdiction's website](#) for further information.

### When will the state and territory variations be published?

The complete version of NCC 2022 has been released and sets out state and territory variations.

### What are the key changes for NCC 2022?

You can read the [full article](#) on the changes for NCC 2022 on the ABCB website
